

# Arrow TruTac Forward Action Staple Gun

## TT21

- **Sleek, Easy-to-Use Design:** Modern, ergonomic construction offers smooth operation and surprising power for a light-duty stapler.
- **Forward Action for Better Control:** Patented design lets users *push* the handle rather than squeeze, improving control and reducing effort — especially helpful for smaller hands.
- **Reduced Fatigue & No Kickback:** Forward-action mechanism and anti-slip handle minimize hand strain and eliminate stapler “kickback.”
- **Great for DIY & Household Projects:** Perfect for upholstery, office tasks, general repairs, decorating, and crafting — an essential tool for builders, makers, and crafters.
- **Versatile Material Compatibility:** Consistent staple force makes it ideal for paper, cardboard, fabric, thin plastics, and soft woods.
- **Durable Construction:** Lightweight yet rugged die-cast aluminum body ensures strength, reliability, and long-lasting performance.
- **Easy Reloading & Jam Clearing:** Bottom-load magazine allows fast staple loading and simple jam removal.
- **Staple Viewing Window:** Built-in window clearly shows when you’re running low on staples — no guessing.
- **Compatible Staples:** Uses Arrow JT21 fine-wire staples in 1/4”, 5/16”, or 3/8”.

## Product Information:

|                    |                     |
|--------------------|---------------------|
| Brand              | Arrow Fastener      |
| Pack Weight        | 0.23 Kg             |
| Package Dimensions | 0.4 x 0.13 x 0.11 m |
| Color              | Red                 |
| Material Type      | Plastic             |
| Part Number        | TT21EU              |
