

Arrow Rivet Adapter

RA1

- Converts any cordless or corded drill into a fast, powerful rivet gun.
- Compact 170 mm design for easy handling in tight or overhead spaces.
- Durable internal metal mechanism for long-lasting, reliable riveting.
- Lightweight, ergonomic 28 mm grip reduces fatigue during repetitive use.
- Includes 4 interchangeable nosepieces: 2.4 mm, 3.2 mm, 4.0 mm, 4.8 mm.
- Clearly labeled nose sizes for easy selection and correct rivet matching.
- Smooth, consistent mandrel pull and ejection for uninterrupted workflow.
- Compatible with most drills that support forward/reverse rotation.
- Provides cleaner, more uniform rivet setting compared to manual riveters.
- Greatly reduces riveting time – ideal for medium to high-volume jobs.
- Eliminates the need to purchase a dedicated rivet gun.
- Suitable for aluminum rivets commonly used in gutters, sheet metal, HVAC, appliances, fencing, and general repairs.
- Compact, portable design fits easily in any tool bag.
