

# Arrow Hammer Tacker

## HT19

- **Ready for action:** Ideal for fast-paced professional or -household projects where precision isn't critical—perfect for installing insulation, house wrap, roofing underlayment, or flooring.
- **Fast, powerful performance:** Patented high-drive anvil mechanism delivers more force per swing, allowing staples to seat cleanly and quickly.
- **Workpiece protection:** Enhanced anvil design helps prevent dents, scratches, and surface damage.
- **Reduced vibration:** The shock resistant build will reduce vibrations by 20%, improving comfort and accuracy.
- **Comfort-focused grip:** High-impact rubber sure-grip handle ensures a secure, comfortable hold for consistent stapling.
- **Efficient loading and Staple Compatibility:** Rear-load, quick-load magazine minimizes downtime and keeps workflow moving. Works best with Arrow H 19 light wire staples which are the pro's choice to install insulation.
