

# Arrow Heavy Duty Hammer Tacker

## HT50MG

- Lightweight magnesium body provides strength while reducing user fatigue.
- Corrosion-resistant construction increases durability and tool lifespan.
- Sure-grip rubber handle offers a firm, comfortable hold during extended use.
- 20% vibration reduction helps minimize strain on hands and arms.
- Patented drive design delivers more power with every staple for improved fastening performance.
- Shock-resistant build protects internal components and prevents dents or scratches on work surfaces.
- Rear-load magazine allows fast, easy staple reloading to keep productivity high.
- Compatible with Arrow T50 staples (5/16", 3/8", 1/2") for versatility across multiple jobs.
- Ideal for insulation, house wrap, roofing, underlayment, and flooring applications.
