

Arrow Staple and Nail Gun

T303

- **2-in-1 Fastening System** – Uses both T50® staples (6–14 mm) and 18GA brad nails (15 mm), giving users the flexibility to tackle upholstery, crafts, insulation, light woodworking, repairs, and more with a single tool.
- **High/Low Power Adjustment** – The built-in HIGH/LOW selector allows users to increase power for harder materials or lower it for delicate surfaces, helping achieve clean, accurate fastening every time.
- **Durable All-Metal Construction** – A sturdy metal housing ensures long-lasting reliability, stability, and performance, even during repetitive use—ideal for both DIY users and light professional tasks.
- **Compact, Ergonomic Handling** – Lightweight, well-balanced form reduces hand fatigue and makes staple/nail placement easier, especially during extended project work.
- **Easy Fastener Identification** – A clear fastener guide printed on the packaging helps users quickly confirm which staple or brad size to load, reducing mistakes and ensuring smooth workflow.
- **Improved Project Finish Options** – With the choice of either staples or brad nails, users can choose the fastener that best suits their project—staples for holding strength, brads for cleaner, less visible results.

Product Information:

Brand	Arrow Fastener
Pack Weight	0.6 Kg
Package Dimensions	0.12 x 0.20 x 0.032 m
Color	Red
Gauge	18 Ga
Length of Nail	15mm
Fastener Length	6 – 14mm
Material Type	Plastic, Metal
Part Number	T303EU
